Project Name	i-Movies — Movie Ticket Booking System
Maximum Marks	2 Marks

Customer Problem Statement Template:

To identify common difficulties users face when discovering movies and booking tickets, and use these problems to guide the development of i-Movies.

Customer Problem Statement

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a moviegoer.	find a movie, compare showtimes, and book suitable seats online.	movie details, showtimes, and seat availability may be spread across different services.	the booking process can require multiple searches and steps.	frustrated and unsure whether I've found the most convenient option.
PS-2	a user booking movie tickets online.	complete a booking and keep track of my ticket details.	booking and seat information must be clear and easy to access.	unclear availability or a complicated booking flow can make the process harder.	confused and less confident about completing my booking.

Note: These statements describe potential user pain points inferred from the purpose of a movie-ticket booking system; they are not presented as results of a formal user survey.
